COMMUNITY HEALTH CENTER
Of The New River Valley

Welcome to your Health Care Home!

Thank you for choosing our Community Health Center as your Health Care Home. As your Health Care Home, you will be asked to select a primary provider, who will oversee all of the care you receive. That provider is assisted by a care team made up of nurses and other support staff. Your care team will coordinate your health care throughout all settings inside and outside of our Community Health Center to promote better health for you, our patient.

We provide the highest quality of health care, based upon current medical, dental, and behavioral health research, standards, and protocols. We provide integrated care so that all of your providers work together to provide comprehensive and holistic care that considers every aspect of your health. We will involve you in the decisions made on your behalf.

As a Health Care Home, we function best when we have your complete medical history and information about health care obtained by other providers outside of this Health Center. We will always ask you for updates about other medical, dental, and mental health care you have received, so we can stay up to date and provide the most appropriate and continuous service possible.

Also as a Health Care Home, we provide timely clinical advice on the telephone and via a secure web-based Patient Portal, both during office hours and when the office is closed. Instructions for obtaining care and clinical advice using the telephone and Internet are included in this welcome packet.

At our Center, no one is denied service due to an inability to pay. Persons with limited income may qualify for our Discount Fee Program. Please inquire.
